

After Procedure Care

INSTRUCTIONS:

Day 1: CHILL! Do nothing to your tattoo. Leave it be!

WASH YOUR HANDS THOROUGHLY BEFORE TOUCHING THE TATTOOED AREA.

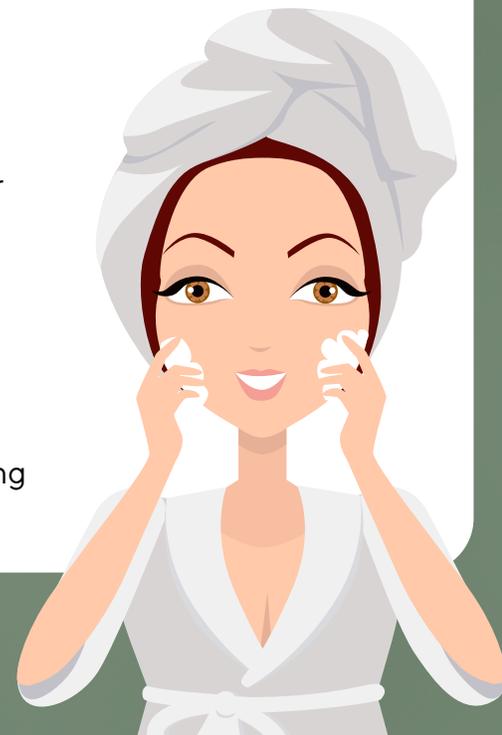

- NORMAL/DRY SKIN: Day 2, apply ointment with a disposable cotton swab in a very thin layer so brows can breathe 2-3 times a day after cleansing (make sure area is completely dry before.)
- OILY SKIN: Day 2, apply ointment with a disposable cotton swab in a very thin layer so brows can breathe 1-2 times a day after cleansing (make sure area is completely dry before.)

Day 2-7:

- **Cleanse the area morning and night:** with lukewarm water and a mild cleanser (like baby shampoo or Cetaphil) wash with a very light touch. Use your fingerTIPS to gently cleanse the area and ensure that all soap is rinsed away. This aids in the removal of bacteria, build up of product, oil and dead skin. (Don't worry, this will not remove pigment!) **Do not use any cleansing products containing acids (glycolic, lactic, or aha), or exfoliants.
- **Gently PAT DRY** with a clean cotton pad. Keep tattooed area dry.

Days 2-7: ** skin must be clean and dry **

- **Moisturize:** apply a rice grain amount of aftercare ointment with a cotton swab and spread it across the treated area. Be sure not to over-apply, as this will suffocate your skin and delay healing. The ointment should be barely noticeable on the skin. Never put the ointment on a wet or damp tattoo.
- a Proper PREP & AFTERCARE routine is essential to the process. You will have much better results with your procedure. We cannot guarantee results if you do not take care of your tattoo.
- SHOWERS: a Very QUICK shower is OK but DO NOT let the shower directly hit the tattooed area. (Excessive heat & moisture is not good for the healing process so it is recommended to keep showers at 5 minutes or less).
- Your face should only be getting wet only at the end of the shower. Avoid excessive rinsing and keep water LUKE WARM, avoiding hot water on the treated area. Do your best to avoid soap or water running over your tattoo other than the initial cleanse.
